

KINTSUGI Experience

金継ぎ体験

Kintsugi is the Japanese art of repairing broken pottery with natural Urushi lacquer and gold, embracing the beauty of imperfection and transforming flaws into art.

■ PROGRAM of KINTSUGI Experience

1. What is Kintsugi ?

- Learn about the history and sustainability of kintsugi with urushi, the sap of trees. Our workshop stays true to tradition, unlike modern methods using synthetic adhesives.
- Enjoy discovering the various kintsugi works.

2. Kintsugi Demonstration

- Bond the broken pieces of vessels together, with 'mugi urushi,' a natural adhesive made by kneading flour and mixing it with lacquer.
- Coat with lacquer and sprinkle with gold (brass) powder.

INSTRUCTOR
Urushi Specialist
Chiaki

3. Let's try Kintsugi !

- Paint lacquer to the dish. It can be a little tricky to apply the lacquer in fine lines and small areas, but don't worry, you can definitely do it!
- Sprinkle brass/tin powder on the lacquer which you painted.
